Dear Sir or Madam,

I am writing to apply for the position of IT which I saw advertised on the Southampton Solent University website.

Please find attached my CV which highlights how my background and experience can benefit an innovative and growing company such as Ageas Insurance Ltd.

I know that Ageas Insurance Ltd is one of the most powerful insurance companies in the UK and the most powerful one in Belgium which use to be Fortis (bank + assurance) from Belgium that has been split into Ageas (insurance) and BNP Paribas Fortis (bank). Getting in the IT position in Ageas would be a huge opportunity for me as I have a high respect for your company and it could help me to travel in foreign countries.

I have a strong ability to communicate with people and to manage things by myself and I am good at team working as, during my studies, I joined several group work in many different areas. Therefore, as I am a foreigner, becoming more extroverted and learn fast how everything works elsewhere were essentially.

I am able to speak two languages fluently and have basic knowledge in two others more which are detailed in my CV.

As I am graduated in Entertainment Technology (audio engineering) I am quite handy with computer programmes such as Windows Word, Excel and even sound and video software such as Logic, Cubase, Protools and Final Cut.

In my university, I have been trained for two days in order to become a student ambassador.

The motivation is probably my strength the most important. As being sporty and doing “body building”, I have to be strict in both my training and my diet. Therefore, without motivation it is impossible to succeed!

I'd like to thank you in advance for your time in considering this application and look forward to hearing from you.

I am available at any time for interview.

Yours Faithfully.
